OMHSAS maintains a comprehensive, community based mental health system of care for every county. OMHSAS provides positive outcomes for children/adolescents and their families with, or at risk of, mental health problems.	Child welfare and juvenile justice services are organized, managed, and delivered by County Children and Youth agencies and County Juvenile Probation offices, respectively.	ODP provides individuals with mental retardation and autism, and their families, the services and supports they need to participate fully in community life.

OMAP provides medical assistance to low-income persons who are 65 or older, blind, disabled, or are family members with dependent children, or are qualified pregnant women.	The Department of Health provides licensed drug and alcohol services for adolescents. Service delivery is based on the intervention need of the individual. Information on accessing services is available through each Single County Authority (SCA) or the county Drug and Alcohol Office.	The Commission is responsible for advising juvenile courts concerning the proper care and maintenance of delinquent children; establishing judicial procedures used in juvenile courts; establishing personnel practices for probation officers; collecting, compiling, and publishing juvenile court statistics.
