

# **Attachment Disorder/Developmental Trauma Pennsylvania Task Force**

Are you raising a child with “RAD”? Whether Adoptive, Foster, Kinship or Biological... these kids are isolating, exhausting and downright dangerous at times to raise.

- Have you found it hard to find services that are informed and accessible to you?
- Do you find services only to find out they are not “covered” by your insurance?
- Do you feel like everyone you look to for help knows less than you about the issues your child and family are experiencing?
- Would you be interested in meeting and working with other parents and professionals to make real change?

Carol Alden, the adoptive mother of a child with severe attachment related issues is on your side and taking a stand to unite others living with the same effects on the family. In 2004, she founded Heart 2 Heart PSN, Inc. in the hope of sharing resources, support and training in the realm of attachment disorders. Since its inception, Heart 2 Heart has realized the over-arching needs of families across Pennsylvania; services and support that understands them, does not blame them, and is trauma informed and ready are hard to find.

To this end, we have taken the lead in creating a task force on Attachment Disorder & Developmental Trauma. We need to hear from you. We need your story and your energy.

If you would like to be involved in this ground-breaking effort please send your information via e-mail to : [admin@heart2heartpa.org](mailto:admin@heart2heartpa.org)

We need:

- Biological or Adoptive Child
- Number of children in home with AD/DT issues
- How long in home if adopted
- Age of child/children
- Pennsylvania county of residence
- Contact information (Email/name/phone/address)

**Heart 2 Heart**
