

The Grapevine Center...

*...blending good people with better choices
for the best recovery*

These boardroom chairs will soon be empty!

Picture yourself here!

It takes a group of talented people with diverse skills and backgrounds to fill board positions, committee seats and chairs along with workgroup vacancies.

Board members guide and support the organization in the implementation of its mission:

With respect and dignity for all, the Grapevine Center is a recovery resource where peers mentor, inspire and support individuals and families in a healing environment as valued community citizens. The Center will advocate for social justice on behalf of all people using mental health and/or co-occurring services.

We invite you to tour our Center and to attend a board meeting. Please contact the Grapevine Center to schedule an appointment or to learn more about the obligations of board members, the community we serve and aspirations fulfilled... yours, ours and theirs.
